

MasterMover®

Danmark Electric Tug Solutions

ATP400

All Terrain Pusher

**Electric Load Pusher |
The All Terrain Pusher**

The All Terrain Pusher ATP400 is designed to push wheeled loads, even if the floor surface is less than perfect. Whether it be a long train of roll cages or a huge load on rails, the ATP400 possesses more than enough power. A combination of its AC drive motor and high-torque gearbox provide that power whilst traction is achieved via a leverage system and chunky pneumatic wheels. A steel chassis gives the tug strength and a self-levelling castor is one of many safety features.

All Terrain Pusher ATP400

Industries

Suitable for use in a wide range of applications and sectors

Retail and Logistics

Construction and Mining Equipment

Warehouse and storage

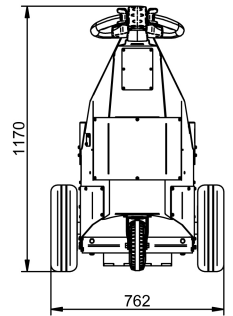

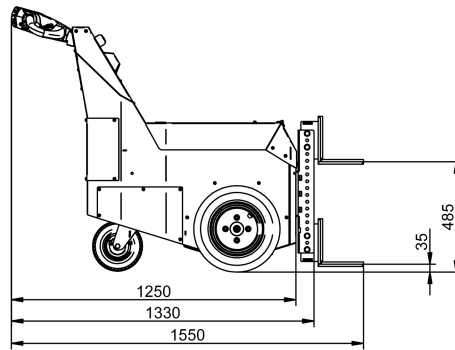

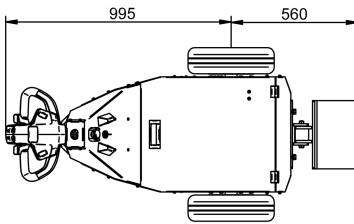

Trains

Key Benefits

1 year full guarantee

- Battery monitoring system
- FEA tested steel chassis
- AC drive motor
- High-torque gearbox
- Self-levelling support castor
- Leveraged weight transfer

Max Load Weight

See our website for full technical details

Castors

Up to 5,000 kg*

Rails

Up to 80,000 kg*

*"Maximum load weight" is only a recommendation that we arrive at by estimating rolling resistance. Your environment and wheel type may affect this figure which is why we carry out a detailed technical evaluation on every project. All of our calculations include a "safe work load" factor to ensure safe operation in all circumstances.

Identification

Product code	ATP400
Recommended load weight - Castors	5000 kg
Recommended load weight - Rails	80000 kg
Machine weight including battery	350 kg
Drive type	Electric AC
Parking brake	Electromagnetic
Drive wheel type	Industrial pneumatic
Drive motor power	2 kW
Controller type	AC
Variable machine speed	0.1 km/h - 5 km/h
Ingress Protection	IP44

Battery options

Battery pack - sealed - 102Ah 24V - interchangeable
Battery pack - sealed - 119Ah 24V - interchangeable

Charging options

Charger - internal - 15A 24V - 85V-265V
Charger - external - 12.5A 24V - 110V-240V

Additional equipment

Option - flashing safety light and motion bleeper
Option - two speed selector switch
Option - wireless control handset
Option - wheel protectors

Male coupling options

Coupling - height adjustable push plate - 90° (L shaped)
Coupling - male - height adjustable box
Coupling - Tetra
Coupling - York
Coupling - height adjustable push plate

Female coupling options

Coupling - female - box
